Glossary – Explaining the acronyms and terminology

Fair trade: unless capitalised, the use of the word fair trade means a living or better wage for garment workers. When capitalized Fair Trade certified is the official certification by the Fairtrade Labelling Organisations International (FLOI)

Global Organic Textile standard or GOTS: worldwide leading textile processing standard for organic fibres, including ecological and social criteria, backed up by independent certification of the entire textile supply chain.

Social Accountability Accreditation Services (SAAS) agency: supports social responsibility and accountability by ensuring the implementation of credible systems designed to protect people and their communities with highest social standards, ie a fair and safe workplace.

Certified B Corporation business: B Corps are for-profit companies certified by the nonprofit B Lab to meet rigorous standards of social and environmental performance, accountability, and transparency.

SKAL standards (International Standards for Sustainable Textile Production): Skal inspects and awards organic certification to farms and businesses that meet the organic standards if the production process complies with legal regulations.

Lyocell/tencel/modal (Tencel is the brand name): is a fabric produced from the wood pulp of sustainable forests and processed in a closed-loop system where chemicals, water and carbon discharged in the process are re-used.

OEKO-TEX® Standard: A worldwide consistent, independent testing and certification system testing raw, semi-finished, and finished textile products at all processing levels, as well as accessory materials used, for harmful substances.

Ethical Fashion Forum: a not for profit network and member's platform focusing upon social and environmental sustainability in the fashion industry and awarding special individuals and brands a Fellowship 500 membership for their pioneering and innovative dedication towards sustainability in fashion.

European Business and Social Compliance initiative (BSCI): a leading supply chain management system that supports companies to drive social compliance and improvements within the factories and farms in their global supply chains. BSCI implements the principle international labour standards protecting workers' rights such as International Labor Organization (ILO) conventions and declarations

ILO: international labour organisation is a United Nations agency that brings together governments, employers and workers of 187 member States to set labour standards, develop policies and devise programmes promoting decent work for all women and men.

ZQ-certified wool: A community of grower suppliers that meet stringent standards of sustainable farming and animal welfare on merino farms in NZ.
